POLICE SCOTLAND PUBLIC SURVEY

On 7th April, Police Scotland launched their redesigned online public survey. The survey will allow communities to tell the police what's important to them – and to do so at a time which is convenient to anyone taking part as its open all year round, around the clock. The survey will take around 15 minutes to complete and is intended to supplement and not replace direct contact with communities. The responses to the consultation process will be continuously monitored and quarterly progress reports will be published on the Police Scotland website.
A fuller explanation of the process can be found at – http://www.scotland.police.uk/whats-happening/news/2016/april/your-view-counts-police-scotland-launches-new-public-survey#

It would be helpful if information on the survey could be passed through council channels to elected members and communities, to assist in allowing as broad a range of respondents as possible.

Haddington Town Centre Consultation Pedestrians, Parking, and Events – The Access Strategy

With funding from Sustrans, East Lothian Council in conjunction with The Haddington and Lammermuir Area Partnership and the Haddington Community Development Trust have commissioned an Access Strategy for Haddington Town Centre. The Strategy will seek to consolidate existing knowledge and develop a coherent plan for traffic management, improving the quality of the public realm and enhancing linkages throughout the town.

LDA Design (www.lda-design.co.uk) and JMP (www.jmp.co.uk) have been commissioned to carry out this work over the course of the next two months. As part of the analysis and optioning stage, our project team would like to hear from as many members of the community as possible to better understand your issues with the town centre in its current state and explore ideas for the future.

As such, we invite you to visit the team any time between 11am and 7pm on Saturday the 4th of June at the Trinity Centre, Church Street, or speak to a member of the team the Fun Day in Neilson park on the same day.

There will be regular project updates on the East Lothian Council web, Twitter and Facebook pages. You can also email comments to jbaker@eastlothian.gov.uk or Fiona.Davies@lda-design.co.uk"

Update on Queen Margaret University Development Plans

You can now view a slideshow of these plans and send us your feedback at www.edinburghinnovationpark.co.uk . As you will see from the newsletter http://www.qmu.ac.uk/land-development-proposals/docs/edinburgh-innovation-park-newsletter-180415.pdf we are currently working on a detailed economic and business plan that will provide a development pathway and robust funding model for the proposals. Supporting us in this work is Cam-Sci, the UK's leading consultancy in science park and knowledge economy development.

The University's intention is to drive economic prosperity and vibrancy for Musselburgh and East Lothian, including hosting local enterprises and continuing to enhance the links between the town and the university more broadly. Indeed we chose this location for our new campus, which

opened in 2007, because we were attracted by the opportunity to be a core part of the community, economically and socially. We have been very fortunate in having a very supportive local authority in East Lothian Council, who were instrumental in facilitating our relocation, and we are committed to working very closely with the Council as we develop our plans for the innovation park.

We have developed 'Edinburgh Innovation Park' as a working title for these proposals, a decision based on independent research which suggests that the market for the park sees the wider Edinburgh city region, which is made up of East Lothian, Midlothian, West Lothian, Scottish Borders and Fife, as well as the city itself, as a key attracting factor. The final branding will be developed based on full consultation later on in the process.
