Warm Homes Project: August Update & Opportunities

Residents' Voice Group and Community Champions

If you would like to get involved directly with helping shape the East Lammermuir Warm Homes Project, there are two new opportunities for residents, joining the Residents' Voice Group and becoming a Community Champion.

We are inviting all locals to join the **Resident's Voice Group.** This is your opportunity to formally have your voice heard. This would involve giving a small amount of your time to share your honest, constructive feedback as we need to ensure we're delivering what the community wants. You don't need any expertise in energy efficiency or heating, just a willingness to help us make sure the project is serving residents' needs. **To sign up, please follow this link:** Residents' Voice Group Sign Up Form

We are also looking to recruit volunteer **Community Champions** who want to develop the skills and knowledge needed to help spread the word about opportunities to improve energy efficiency and heating decarbonisation in their own settlements and across the East Lammermuir area. We will support you as needed. If you have already made heating or energy efficiency changes to your home, this is still an excellent opportunity to share your journey and help other locals make similar changes. **To learn more or sign up, please follow this link:** Community Champions Sign Up Form

Home Energy Scotland – Free Air Source Heat Pump Webinar

Home Energy Scotland are offering a free webinar next **Wednesday 26th August at 12pm or 6pm** about advice on Air Source Heat Pumps. This is a nationally available webinar, so any information will be general rather than East Lammermuir specific. I will also be attending the webinar, and if you have any questions which are not answered at the session, you are welcome to email ellen.abbi@lothianheat.org

Please note, if you are interested in Heat Networks or Shared Heating Solutions, this webinar will not address these types of heating systems.

Please click the link to learn more and sign up: *qrco.de/HeatPumpWebinar*

If you'd like to register your interest in the East Lammermuir Warm Homes Project and haven't done so yet, please visit: East Lammermuir Warm Homes Project – Interest Form
